ALLISON-SMITH COMPANY
ELECTRICAL CONTRACTORS & ENGINEERS

WHO WE ARE

Founded in 1943, Allison-Smith Company has evolved from a premier Atlanta electrical contracting and engineering firm into a company with national and international presence.

We pride ourselves on creating the kind of company people want to work for. That's why we invest in our employees. We continue to create opportunities for growth and training, making Allison-Smith an ideal place to build your career.

**Allison-Smith is
an employee-owned,
client-driven organization.**

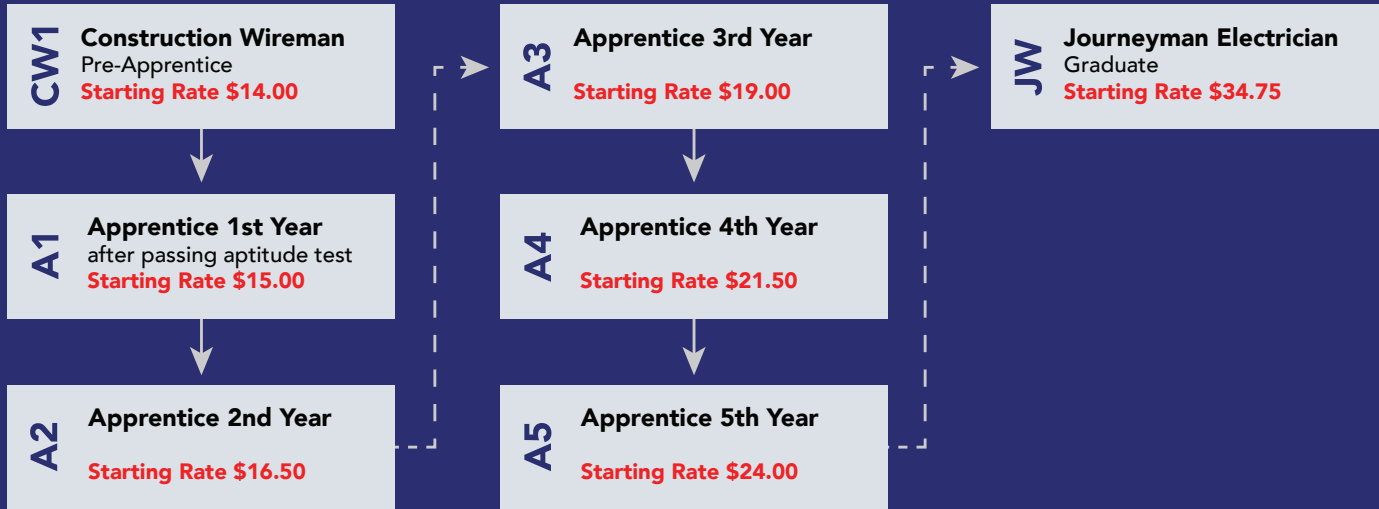

WHAT IS AN APPRENTICESHIP?

An apprenticeship allows you to get an accredited qualification while working and earning wages in the career of your choice. It provides an opportunity to develop valuable skills and experiences that will open doors to vast career opportunities. An apprentice typically works towards nationally recognized qualifications while also developing technical skills and on-the-job knowledge. If you enjoy hands-on learning and want a career with growth potential, an apprenticeship could be right for you.

A QUICKER PATH TO STABLE INCOME AND LONG-TERM SUCCESS

*Compare this to the average starting salary for 4-year degree of \$55,000
and the average student loan debt of a 4-year degree at \$30,000.*

“I feel valued here. Allison-Smith invests in its people and puts you in a position to be successful.”

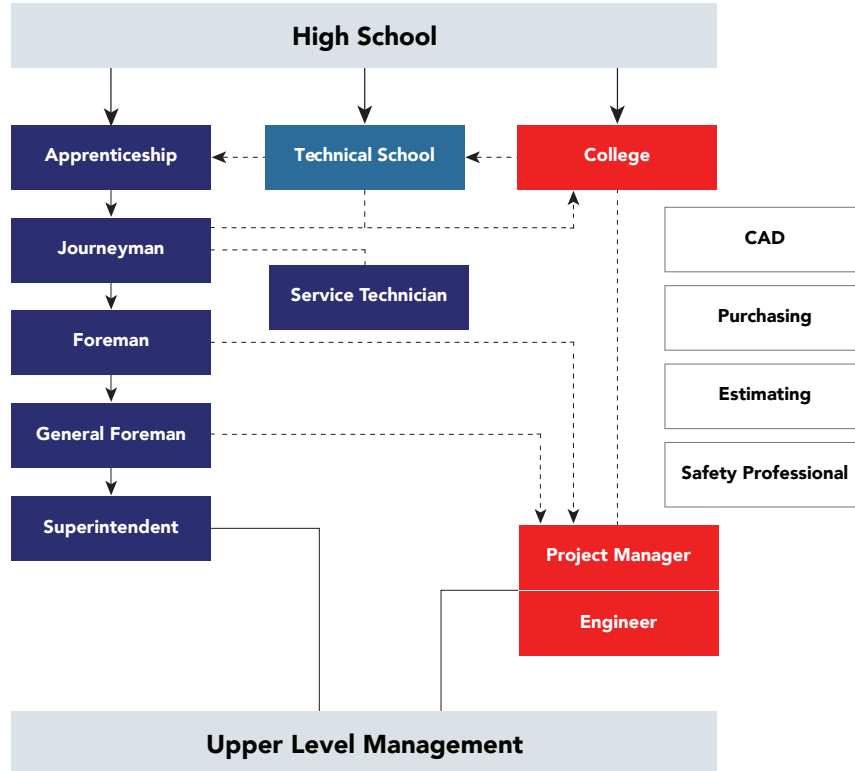

GABRIELLE MOORE, Electrical Foreman

Launching her career with Allison-Smith eight years ago as an apprentice, Gabrielle Moore is now a foreman certified in five specialties.

CAREER OPTIONS AT ALLISON-SMITH
